REPORT.

The Town officers of Duxbury herewith respectfully present their usual annual report for the year.

Through various causes the Selectmen, Assessors and Overseers of the Poor have not vacated their office at the Almshouse for one at Library Building, although a room has lately been prepared there (with exception of furniture) for their use. The present board has not strictly performed the seeming wish of the town as expressed at the last annual meeting in relation to an addition to the building at a cost not exceeding \$1,500.00, which sum was appropriated. Their excuse for this is as follows: First, after issuing proposals, they found that it could not be erected, under plans presented, for that sum. Secondly, they considered that if that sum or more was to be expended for a Town office, the Town should have absolute control of the same, and not be subject to chance ejection therefrom, a chance however remote. Under this circumstance the Assessors did not carry into the last assessment but \$500.00, which was considered abundantly adequate to prepare the only available room and procure the necessary furniture.

Your Assessors, by vote of the Town, have had a copy of the valuation books printed in this year's Report; also have added a map of the Town, showing the different streets, dividing lines of the several Districts, etc., which Mr. Laurence Bradford, with much painstaking and valuable time, generously prepared for printing without charge.

Your Overseers of the Poor, as will be seen in recommendations for appropriations, have reduced Support of Poor to \$2,800.00. As there have been some drawing aid from this appropriation that should be given aid, if any, under Chap. 279, Acts of 1893, they have recommended an appropriation of \$150.00 under this act. As the appropriation for Military aid exceeds the expense, they have recommended a reduction of this to \$250.00. Mr. and Mrs. J. A. Soule have continued in charge at the Almshouse the past year, with entire satisfaction to the Overseers.

Following is an account in detail of the different departments of town service the past year.

REPORT OF BOARD OF HEALTH.

During the past year Scarlatina and Diphtheria have been more than usually prevalent in many of the larger towns and cities of the State, and Duxbury has had several cases. In all, eleven cases of Scarlatina, one of Diphtheria and one of measles have been reported. All, however, have been of rather a mild nature, and no deaths have occurred.

During the past year the Board has taken up the practice of placarding houses where contagious diseases exist, and only removing the placard when the disease is at an end and the house has been properly disinfected. In this way, sometimes much danger of spreading the contagion can be prevented, and the Board would respectfully request the cordial support of the townspeople in promptly reporting (as required by State law) all suspected cases of contagious disease to this Board, that suitable means may be taken to prevent the spread of such diseases.

During the year the Board has ordered the abating of several nuisances; vaults, cesspools, etc., ordered cleaned.

During the summer a number of seals and various other dead animals were washed ashore in the bay and ordered buried.

N. K. NOYES,
SAMUEL P. SOULE,
HENRY H. LEWIS,
Board of Health.

ALFRED E. GREEN,

JAMES H. KILLIAN,

Auditors.

TO THE CITIZENS OF DUXBURY.

Gentlemen:—

At your wish, as expressed by vote, I have served you for twenty-one years continuously as Selectman, Assessor, and Overseer of the Poor, and now, looking at the subject in all its bearings, am satisfied that it is time for me to decline further service, and in doing so wish to say that during this long service (although perhaps I may have sometimes failed in judgment,) it has been my constant care to serve you honestly, faithfully, and to the best of my ability. I have endeavored to do my whole duty without fear or favor.

Sincerely thanking you for the confidence you have reposed in me, also for the uniform kindness which every one with whom I have met has accorded me, I remain,

Truly yours,

SAMUEL P. SOULE.

DUXBURY, Feb. 1st., 1895.

Duxbury, Feb. 1, 1895.

REPORT OF SCHOOL COMMITTEE.

The School Committee of Duxbury herewith submit their annual report.

Miss Emma S. Stetson, who had served as a member of the Committee for five years, resigned in April, and William S. DeWolf was appointed for the balance of the year.

The town of Scituate, having voted not to continue in union with the towns of Marshfield and Duxbury, and the town of Marshfield voting, in special meeting, not to unite with Duxbury and Kingston, in the employment of a Superintendent of Schools, the services of Mr. E. H. Watson, as Superintendent of Duxbury schools, were dispensed with at the expiration of his year, May fifteenth.

The Committee have made some changes in the appointment of teachers, introduced a revised course of study, and introduced a new set of reading books.

The necessity for extensive repairs on school-houses was very apparent. Number one has been painted inside, papered and stove repaired; new shades provided for numbers one and two; number three papered; new stove purchased for number four. The north half of the roofs of numbers six and seven have been shingled; several woodshed roofs have also been shingled, and numerous minor repairs made on fences and buildings in all districts. All this has caused the appropriation to be overrun, but if matters had been neglected, greater expense would have ensued later on.

Five Truant Officers have been appointed, and they and the Committee have been quite active in looking up truants and insisting upon their attending school regularly.

During the year all teachers have been allowed two days to attend conventions under the direction of the State Board of Education; also a day each term to visit schools in other places, to observe different methods and results of teaching.

There were a number of cases of scarlet fever in district six, and one in district four, in October. The schools in those districts were closed for four weeks, the books of all infected pupils were burned, and the school-house thoroughly fumigated. By so doing, the spreading of the disease was undoubtedly checked.

Although there has been a great deal said by the residents in district nine, in favor of re-opening the school in that district, the Committee do not see the practicability of so doing, under present conditions. There are less than a dozen pupils. They are now taught in the Pembroke school by an experienced teacher, at about half the expense to our town that opening our own school would entail. Being in a larger school, the classes are larger, which gives our own pupils more of an incentive to study than they would have in a small school. They are not obliged to travel any farther going to and from school than many pupils in other Duxbury districts.

Admission to the High School will, in future, be determined by an average of four marks; one to be given by the School Committee at the end of each term, and the fourth by the regular "Academy examination" at the end of the school year. This plan, it is thought, will be better than the former, by which admittance depended upon one examination only.

The Committee think it advisable to re-grade the District schools. If the town will vote an appropriation to cover the expense, and authorize the Committee to establish a Grammar

school, a suitable room or building might be procured and a teacher hired. By so doing, the teachers in the District schools would have more time to devote to the lower grade pupils, the standard of the High school could be raised, and the pupils of different ages could be better taught and disciplined in the separate schools.

The loss of a Superintendent's services, and the inability to arrange with other towns for the immediate employment of another for the balance of the year, will deprive the town next year of about five hundred dollars' benefit from the State. The Committee hope soon to arrange with other towns in employing a Superintendent, and earnestly recommend the continuance of the appropriation for Superintendent.

The Committee would also recommend an increase in the appropriation for Incidentals and for Repairs. In order to keep the schools in good running order, further expenditure will be necessary shortly for new books, maps, and globes.

New fences are needed in some districts ; wells and drains ought to be put where there are none, and some of the houses need painting badly outside as well as inside.

The following appropriations are recommended for the coming year :

Support of schools,	\$3,200 00
School Incidentals,	800 00
Repairs on houses,	500 00
Salary of Superintendent,	250 00
Establishing a Grammar School, support of same,	
and transportation of some of the pupils,	5,000 00

A summary of receipts and expenditures on account of schools, also an abstract from the school registers, will be found on the following pages, all of which is respectfully submitted.
